Another thing I like about roblox is how inclusive it is. I have learned that all players are welcome to play in this game, and this includes all ages and genders. This can help people meet new people with similar interests as well as find a way to communicate with others online. One time when I played Roblox, I was able to play a game that was very similar to the popular game fortnite. This is very fun for people who enjoy playing fortnite because they can play a similar game for free! It also gives people an opportunity to try something new and different while still being able to meet new people online.

In February 2021, it was reported that a game called "Miner's Haven" has been criticized by Roblox users for having a suicide feature where players would have the option of killing themselves when their health reached zero. The players who played this game received a message from the developer named Master Zen said that he was working on an update that removed this feature. The update was released in March 2021 and it included an anti-suicide feature where the health would reset to 100 instead of 0. However, the developer confirmed that he would "still allow players to commit suicide if they are in the mood". To make up for this issue, Master Zen released a series of development updates that included fixing bugs and adding new features to "Miner's Haven".
