However, this has upsides too as users can fix most bugs themselves. They have often been taken down because they are "offensive". However, this can be considered a bad thing in some cases, as advertisers can create "scams", such as charging people \$5 dollars to create a game that can only be played by Admins or other users with unusual settings/roles.

ROBLOX Studio, from a desktop PC screenshot taken on 1 September 2021 Game Similarities and differences Roblox games are compared in the table below. Developed by Epic Games. It introduced its own version of placeable objects called forts, which are similar to those found in ROBLOX's games such as "Rusty Heights". [131] Paintball There is a video that shows how to play this game. It consists of two players and two teams. The players try to hit a ball with their guns passed through the paintball-covered targets, and the team that hits the ball through all the targets wins. Grand Theft Auto V ROBLOX was compared with this game because it has similarities with it: it allows players to create their own cities, where users can place art, buildings, houses, vehicles and people. [132] Minecraft This is a creative building game played in an open world. Users have survival games they play in order for them to find loot and obtain materials needed to survive outside of their city(s). ROBLOX is similar to Minecraft because both games are created by the same company. Gamers in ROBLOX can use Minecraft-like blocks to build anything they want. [133]

Some of my other complaints on Roblox include:

This is not an open world game, each world contains its own mini-map that shows the player where he or she can go and where they cannot go. No one will know you're there if you stay hidden. This means that if you don't want someone to find something in your inventory, you have a location to hide it.
